Business Center

Makati hotel today can provide guests with the features of a business center. The best hotels in Makati City offer the same types of internet and conference services as first class hotels in major cities around the world. Features like wifi access in the lobby or lounge area, ethernet connections, computers, printers, fax, scanning and many other typical office functions. The hotels' business networks allows guests to send and receive files, check and respond to email, surf the internet, and connect with others as you would from home or from the office. Up to date computers and other office equipment are available to help you stay on top of business matters even if you are traveling for a much needed vacation.
