# Hotels With Wheelchair Access

Traveling with physical limitations or traveling with someone who is physically challenged can be frustrating. Fortunately Makati City hotels are becoming more wheelchair accessible to accommodate the different physical challenges guests may have. Hotels are taking steps to be more welcoming to those with limitations by adding wheelchair ramps, wide entrances in rooms and bathrooms, and making getting to and from rooms easier. Other facilities in hotels, like meeting rooms, restaurants, and lounges are also easily accessible for those in wheelchairs to make traveling more pleasant and less of a Hassle.
